

Guidelines and Protocols

Scenario 3: Guidelines and protocols are not up-to-date

Guidelines & Protocols

Group 3

K.I.S.S Guidelines

Eye Care for all diabetic patients

- * Select the appropriate Guidelines
- * K.I.S.S. (keep it simple & short)
- * Disseminate
- * Educate
- * Remind/Retrain/Reinforce

Who are our Stakeholders & what do we need to do?

- * What are the best guidelines to use?
- * Let's keep it SHORT & SIMPLE!
- * Let's get the information out there!
- * RETRAIN
- * REINFORCE
- * REMIND

How will we know we have done a good job?

- * Endorsement of simplified guidelines by influential/authoritative bodies
- * Funding from public or private entities to ensure a minimum standard of care for all patients
- * Increase of guidelines utilisation as assessed by a 3rd party
- * Reduction in DR related blindness

Can others use our method?

- * YES: the more, the better!
- * The core concept of the project is the simplification of existing guidelines and the continuous circulation & reinforcement of the information.
