Professor Ian Pearce

Consultant Ophthalmologist and Vitreoretinal Surgeon, Royal Liverpool University Hospital, UK

Ian Pearce is a consultant ophthalmologist and vitreoretinal surgeon at St. Paul's Eye Unit, Royal Liverpool University Hospital, UK, providing specialist services for age-related macular degeneration, vitreoretinal surgery, diabetic eye disease, and uveitis. Further, he is an Honorary Professor at the University of Liverpool.

Since 1993, Professor Pearce has been involved in clinical research and has been principal and chief investigator for numerous national and international phase 2 and 3 trials of novel therapies, including several anti-vascular endothelial growth factor treatments. He has delivered many invited lectures worldwide, and has authored three national guidelines, over 100 peer-reviewed publications and several book chapters.

Professor Pearce is a past President of the Ophthalmic Imaging Association, Director of the Clinical Eye Research Centre at St. Paul's Eye Unit, and a member of the Royal College of Ophthalmologists Scientific Committee. He is the nominated Specialist Clinical Expert Advisor to the National Institute for Health and Care Excellence for the appraisal of novel technologies for the treatment of retinal diseases, and chairs the Advisory Committee on Dangerous Pathogens Transmissible Spongiform Encephalopathy Ophthalmic Subgroup for the UK Department of Health.

Professor Pearce has trained many UK and international retinal specialists through St. Paul's Eye Unit fellowship programs, and is a Regional Advisor for Ophthalmology to Mersey Training Deanery, the Mersey Deanery Program Director for Medical Ophthalmology, and an examiner for the Royal College of Ophthalmologists.
