Dr Winfried Amoaku

*Chair of Dermatology Ophthalmology and ENT (DOE) Management Committee, UK
Honorary Consultant Ophthalmologist, Nottingham University Hospitals NHS Trust (QMC), UK
Professor in Ophthalmology and Visual Sciences, University of Nottingham, UK*

Winfried Amoaku is an Associate Professor in Ophthalmology and Visual Sciences at the University of Nottingham, and Honorary Consultant Ophthalmologist, Nottingham University Hospitals NHS Trust (QMC). He is the University of Nottingham Teaching Lead for Ophthalmology, Chair of the Dermatology Ophthalmology and ENT (DOE) Management Committee, and Chair of the Clinical Phase 2 Undergraduate Medicine Curriculum Management Committee.

Dr Amoaku's sub-specialty interests are medical retina diseases and uveitis. His research complements his clinical practice, and focuses on the occurrence, pathogenesis, and treatments of age-related macular degeneration (AMD), diabetic retinopathy and other retinal vascular diseases. He has published over 100 peer-reviewed publications, and serves as a Specialty Chief Editor for *Frontiers in Ophthalmology (Retina)* and *International Journal of Translational Medicine Diabetic Retinopathy Special Edition*, and as Associate Editor of *Eye* and *BMC Ophthalmology*. Further, he has advised the UK's National Institute of Health and Care Excellence on numerous health technology assessments in retinal disease, and has served on ad hoc Advisory Boards for different pharmaceutical companies across AMD, diabetic macular edema, non-infectious uveitis, and retinal vein occlusion.

Dr Amoaku previously served the Royal College of Ophthalmologists (RCOphth) in various positions and has contributed to several RCOphth clinical guidelines. He chaired of the VISION 2020 UK Macular Interest Group, and is a past member of the Scientific Advisory Committee of the Macular Society UK. Further, he is past President and Vice-President of the Convention for Biomedical Research Ghana, where he continues to serve as a board member.
